DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment filed October 4, 2005. The applicant cancelled claims 1-10 and 12-20. Claim 11 was previously indicated as allowable.

Allowable Subject Matter

2. Claim 11 is allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses, teaches or fairly suggests the claimed system comprising, among other things, a controller that is operable to detect when an evaluation item is placed into the interior of a sensor chamber and a damage calculator that is operable to compare the data readings from a plurality of sensors and the expected results from the database to identify particular characteristics pertaining to the evaluation item. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claim 11 is found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
